## HEALTHCARE ENTREPRENEUR

After spending the better part of a decade working in various corporate healthcare settings, I recognized the opportunity to leverage my expertise and skills to make a positive difference in the healthcare industry by establishing inclusive community-based services offering personalized care in a home-like environment.

Staff Development	Health Coaching/Consultation	Negotiations
Systems Implementation Strategist	Business Liaison	Community-Centered

---

## EXPERIENCE

Green Meadows Care Home & A Meadow View AFH May 2021 – Present

Owner || Director of Nursing

The insights gained from the acquisition were invaluable. Daily operations transitioned in less than twenty days, and successful state licensure transferred in under forty-five days. Green Meadows Care Home thrives as a stand-alone community-based medical care.

Legacy Nurse Consulting, LLC. July 2018 – Present

Owner || WA DSHS Certified

The Legacy Nursing consulting company was created to fulfill the needs of less experienced provider support in community healthcare settings. We provide education for families, an acute corporate healthcare staff, and ongoing community-based partnerships.

Legacy Vent Care Home, LLC.

April 2016 – July 2018

Owner II Director of Nursing

The start-up specializes in DSHS WA adult family homes with private-duty nursing contracts. It is explicitly geared toward high-acuity long-term residents reliant on long-term ventilators, parenteral nutrition, IV antibiotics, and all other medical needs necessary to maintain the best outcomes in a home-like setting. Although the vent home was sold in 2018, it remains operational and independent.

**VARIED/Nationwide**

July 2009 - April 2016

Critical Care RN & Hospital Supervisor

The diverse set of experiences derived from nationwide critical care units (CCU) included but was not limited to cardiovascular ICU, neurological ICU, neonatal ICU, surgical/trauma ICU, and post-anesthesia care unit. These experiences culminated in a short yet impactful stint as the nursing hospital supervisor at a regional trauma center of 300+ acute care beds. Staffing was critical, along with customer service and 24/7 operations with MDs of diverse specialties involved.
